COOPER Hand Tools

Certificate

We hereby certify that the calibration attained / maintained
by our Soldering Stations / Irons

WS 51 / PU 51, WS81 / PU 81, WSD 81 / PUD 81
WSD 151 / PUD 151, WSD 161 / PUD 161
WDD 81V Desoldering Station
WMD 1S / WMD 1A / WMD 1D Rework Station
WMD 3 Rework Station

is within 2% of max set value of temperature as stated in our catalogues.

The idle temperature stability is within $\pm 1^{\circ}\text{C}$.

We certify that all Weller Hot Air Stations / Tools

WHA 2000 Hot Air Station
WHA 700 Hot Air Station
WHA 300 Hot Air Station
WAD 101 Hot Air Station
HAP-Tool

are calibrated within a tolerance of $\pm 30^{\circ}\text{C}$.

The Magnastats of the tips for the following Weller units

WTCP 51 / P 51 Soldering Station
W 61, W 101, W 201 Soldering Irons
have an accuracy of $\pm 3\%$ of the temperature.

We further certify that this calibration holds good for one year
from the date of the first use.

Besigheim, January 14, 2004
